## DATA AND DEFINITIONS

According to the United Nations, it is estimated that there are approximately **50 million people** enslaved in the world today, with almost **5.5** out of **1000** people ever being rescued.

That is **~5.5** out of every **1,000** people who are being held against their will.

**4 out of 5** are women and **35%** are children.

Sex trafficking is defined as the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act.

Any commercial sex activity with a minor, even without force, is considered sex trafficking.

Human trafficking is the fastest growing criminal activity in the world today, second in size to only drugs.
